

National Conference on Communication, Computing and System Design (19-03-2019)

The National Conference on Communication, Computing and System Design (NC3SD'19) was conducted by Department of Electrical and Electronics Engineering, Department of Computer Science and Engineering and Department of Electronics and Communication Engineering on 19th March, 2019. The chief guest Dr. Bobby George, Associate Professor, IIT Madras along with the PSG iTech crew members released the conference proceedings.

The key points delivered to the audience by the speakers are:

1. Latest works ongoing in the field of sensors
2. Necessity of providing simple solutions to the engineering problems
3. Hybrid electric vehicle charging

The second keynote sessions for the Departments of ECE and CSE was delivered by Dr.Mahesh R Panicker, Assistant Professor, Department of Electrical Engineering, IIT Palakad. He started the session with the importance of Signal processing concepts, and the classification of signals. He discussed about a few case studies like compressor blade health monitoring. He spoke about the importance of sampling the data and how it plays a vital role in the reconstruction of signals.

In the afternoon session, 44 papers were presented by the participants from various institutions in EEE, CSE and ECE department.
