## Name: Priyanka M

Research guide: Dr. K. Balaji

Date of joining: 27.06.2022

Department: Chemistry

Education Details (UG & PG)

**UG:** Christ University, Bengaluru.

PG: Bangalore University, Bengaluru.

Tentative title of the research work

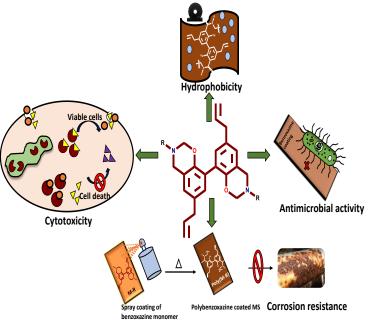

Studies on antimicrobial and antifungal behaviour of

hybrid benzoxazine composites.

## **Brief abstract**

Naturally available sustainable plant based bio-phenols viz, magnolol, cardanol, eugenol, vanillin, curcumin are considered for the development of benzoxazines in the place of petroleum based phenols. The bio-based benzoxazines developed in the proposed work will be assessed for their anti-microbial and anti-fouling behavior in-order to utilize them for coatings for medicinal textiles, antifoulant coatings for antimicrobial corrosion and bio-medical applications.
