Faculty Training on “SAP Analytics Cloud”

Resource Person: Mr. Jitendra Ghanta, Director, SAP Analytics at SAP Labs India

Date: 30.12.2024

Time: 9.00 am – 3.00 pm

Venue: E2 Block – Computer Centre

The Department of Computer Science and Engineering at PSG Institute of Technology and Applied Research organized a faculty training program on “SAP Analytics Cloud” on 30th December 2024, at the E2 Block – Computer Centre. The session, led by Mr. Jitendra Ghanta, Director of SAP Analytics at SAP Labs India, was held from 9:00 am to 3:00 pm and aimed to equip faculty members with advanced knowledge of SAP Analytics Cloud, its applications, and its role in driving innovation and efficiency in enterprise operations.

Mr. Jitendra Ghanta, with his extensive expertise in Data Analytics, provided an in-depth understanding of SAP Analytics Cloud as a powerful tool for data-driven decision-making. He highlighted its applications in enterprise analytics, predictive forecasting, and strategic planning. The training emphasized that how SAP Analytics Cloud integrates business intelligence, planning, and machine learning capabilities to deliver actionable insights that enable organizations to optimize operations and improve overall efficiency.

The session covered key features of SAP Analytics Cloud, including data visualization, real-time analytics, and collaborative planning. Practical demonstrations showcased how faculty could utilize the platform to analyze complex datasets, create interactive dashboards, and generate predictive insights. Special focus was given to how these capabilities can be incorporated into teaching methodologies to bridge the gap between academic concepts and industry practices.

The program concluded with an interactive Q&A session, where participants had the opportunity to clarify their queries and gain further insights into the practical applications of SAP Analytics Cloud. The training session was an enriching experience for all attendees, equipping faculty members with the knowledge and tools necessary to incorporate advanced analytics concepts into their curriculum and research, ultimately preparing students for the evolving demands of the industry.

Outcome of the Program:

The Faculty Training on “SAP Analytics Cloud” successfully enhanced the knowledge and technical expertise of the participants, equipping them with advanced skills in enterprise analytics. Faculty members gained a deeper understanding of SAP Analytics Cloud (SAC) and its capabilities, including data visualization, predictive analytics, and collaborative planning.
