No: of Students Participants:12

No: of Faculty Participants:-

No: of External Participants (if any):NA

Mode of Delivery: **Offline/Online**

Objective of the Program : To commemorate National Education Day by engaging students in reflective and creative activities that emphasize the significance of education in shaping a nation's future.

Outcome/Report of the Program (300 Words): As part of the National Education Day celebrations and IIC activity, an event was organized on November 16, 2024, at 2:00 PM to commemorate the importance of education in nation-building. Two competitions, essay writing and drawing, were conducted on the theme “*Role of Education in Building Nation's Future.*”

The essay writing competition saw enthusiastic participation from 8 engineering students. The entries were judged by the Head of the Department of English based on four criteria: language, content, relevance, and uniqueness. The essays reflected the students' thoughtful insights into how education shapes the societal, economic, and moral fabric of a nation.

The drawing competition had 4 participants, all engineering students, who creatively illustrated their perspectives on the given theme. The submissions were evaluated by the faculty of the Architecture Department, focusing on creativity and relevance. The artwork

highlighted the transformative power of education through vibrant and innovative visual depictions.

The event underscored the importance of education in fostering progress and innovation. Both competitions successfully engaged students in reflecting on the critical role education plays in shaping the nation's future.

The program concluded with words of appreciation for the participants and judges, emphasizing the need to uphold education as a cornerstone of national development.
