Dr.D.Thangaraju,Associate Professor,Physics Department  
No.of.Participants : 46  
Event Brochure :

The NSS team of PSG iTech visited Sri Sankara sevalayam, an orphanage in Karuvalur, on 17th November 2024. The event was marked by enthusiastic participation from all students, who wholeheartedly engaged with the children at the orphanage. The day began with interactive sessions where students mingled with the boys and girls, fostering a warm and friendly environment. To encourage confidence and participation, a variety of games like singing and dancing were organized. These activities brought smiles to the children's faces and created a lively atmosphere. In addition to the interactive activities, the NSS volunteers undertook cleaning work in the yard, contributing to the maintenance and hygiene of the premises. As a gesture of goodwill, the team presented sports equipment, stationery items and groceries of worth ₹8000 to the orphanage. These contributions were received with gratitude and will aid in supporting the children's education and recreational needs. The visit was a meaningful and fulfilling experience for all involved. The success of this event was largely attributed to the active participation of students and strong support from faculty incharge: DR.P.CHINNARAJ and DR.D.THANGARAJU.
