Event Name	Entrepreneurial talk – “Idea to Entrepreneurship”
Date	21 August 2026
Venue	E6 Seminar Hall
Resource Person	Mr. Mubeen Rahiman
Audience	170 1 st year students
Coordinators	Ms N Susithra, Dr Roger Rozario, Mr Elayaraja

On 21 August 2026, students gathered at the E6 Seminar Hall for a lecture on “Idea to Entrepreneurship,” conducted by Mr. Mubeen Rahiman, CEO - ZAFI Robots Pvt Ltd, CTO - Propeller Technologies and Director - Zentrix India Pvt Ltd. Around 170 students attended the session. The session was organised as a part of the Students Induction Programme by PSGiTech Launchpad, Institution innovation Council and Entrepreneurship Development Cell.

Mr. Rahiman through his story of becoming a part of three start-ups, stressed the importance of truly listening to people, paying attention to what others have to say identifying the problem and since that is where a good idea or a good business actually begins. Confidence and the right mindset, he said, matter just as much as the idea itself. The session left students with plenty to think about not just entrepreneurship itself, but the everyday habits, like really listening, appreciating others and starting early, that go into building something meaningful.

Mr. Mubeen Rahiman sharing his journey during the session titled, on “Idea to Entrepreneurship”
