

Report on the Visit of the Delegation from German International University (GIU Berlin)

16th February 2026

A delegation from **German International University (GIU), Berlin** visited **PSG Institute of Technology and Applied Research (PSG iTech)** on **16th February 2026** with the objective of exploring opportunities for academic collaboration, research partnerships, and student exchange programs.

The visiting delegation was warmly received by the management, faculty members, and administrative representatives of PSG iTech. The visit began with a formal interaction session where the delegates were introduced to the institution's vision, mission, academic programs, research initiatives, and industry collaborations. The discussion focused on strengthening international academic partnerships and fostering global learning opportunities for students and faculty.

During the visit, the delegation toured various academic facilities and laboratories across the campus. They were briefed on the institution's infrastructure, research facilities, and innovative projects undertaken by students and faculty members. The delegates appreciated the institution's commitment to quality education, practical learning, and research-oriented academic practices.

The interaction session also included discussions on potential areas of collaboration such as:

- Student and faculty exchange programs
- Joint research initiatives
- Collaborative academic programs
- Internship and international exposure opportunities for students

The delegates expressed interest in developing a strong academic relationship between the two institutions and exploring mutually beneficial collaborations in the future.

The visit concluded with a note of appreciation from both sides, emphasizing the importance of international partnerships in enhancing educational quality and global exposure for students. The interaction marked a positive step towards establishing meaningful academic cooperation between **PSG iTech** and **German International University, Berlin**.
