

in association with

Bharatiya Bhasha Samiti & Anaadi Foundation

Organize

**One-Day Seminar on " Insights from Agastya Maharishi's Classical
Work on Health, Science and Technology "**

Keynote Speakers

Shriman Adinarayanan
Founder, Anaadi Foundation
**Keynote : The Timeless
Contributions of Maharishi
Agastya to Language, Science
and Civilization**

Dr. SelvaShunmugam P
**Secretary and Siddha Consultant
Health India Foundation**
**Keynote : Agathiyar's Contribution
in Health and Wellness**

O. Shama Bhat
Advocate
**Keynote : Cultural
Confluence: Agastya's Role in
Bridging the North and South
of Bharat**

Prof. Ravinder Pal Singh
**Chief Innovation & Strategy
Officer, Rishihood University**
**Panel Discussion : Connecting
Language with Science: Agastya's
work in Space, health, alchemy,
astronomy, and engineering.**

Dr. J. S. Bhuvaneshwaran
**Professor & Director
Department of Cardiology &
Preventive Cardiology
PSG Hospitals**
**Keynote : Panchakosha Viveka in
Health care**

Dr. Venkatapathy Subramanian
**Director
Anaadi Rural AI Center**
**Keynote : Leveraging Technologies
and AI for Accessing Ancient
Classical Texts**

Venue : E4 - ECE Seminar Hall, PSG iTech, Neelambur

Date & Time : 11.01.2025 & 9.00 am

About the Seminar

The Kashi Tamil Sangamam (KTS) is a celebration of the deep cultural, philosophical, and artistic connections between Kashi and Tamil Nadu, embodying the oneness of Bharat's civilizational legacy. In line with the spirit of KTS, which highlights the amalgamation of tradition and technology, we propose organizing a one-day seminar on "Frontiers in the Wisdom of Maharishi Agastya in Science, Health, and Emerging Technologies." This seminar aims to deepen our understanding of the integral role that Maharishi Agastya's insights have played in shaping India's intellectual heritage. It also seeks to explore how these ancient principles can guide contemporary research and innovation, especially in the fields of science, healthcare, and technology.

Objectives

1. Promote the spiritual wisdom of Siddhas, particularly Maharishi Agastya, highlighting its modern relevance.
2. Convene Siddha scholars, healthcare practitioners, and technologists to preserve, disseminate, and advance these knowledge systems.
3. Foster interdisciplinary dialogue among scientists (e.g., molecular biology, omics, chemistry, computational biology, epigenetics) and Siddha experts for integrated research.
4. Utilize Agastya's insights to inform future research initiatives aimed at addressing global challenges in health, sustainability, and emerging technologies.
5. Strengthen cultural and intellectual bridges between Kashi and Tamil Nadu, informing policies and practices that connect ancient wisdom with modern innovation.

Organizing Committee

Chief Patron

Mr. L. Gopalakrishnan

**Managing Trustee
PSG & Sons' Charities**

Convener

Dr. P. Vijayakumar

Dean - Electrical and Computer Engineering

**Dr. Venkatapathy Subramanian
Director, Anaadi Rural AI Center**

Coordinators

Dr.S.Maruthamuthu, Professor & HoD (i/c) - Physics

Dr S Lokesh, Professor - AI&DS

Ar. K. Rajagopalan, Assistant Professor - PSG IAP

Dr. S. Devaraju, Associate Professor - Chemistry

Patrons

Dr. P.V Mohanram

Secretary

Dr. N. Saravanakumar

Principal - PSG iTech

Prof. Ar. G. Tamilvanan

Principal - PSG IAP

Shriman Adinarayanan

Founder - Anaadi Foundation

Registration is Free (Including Registration Kit, Hi-Tea, Lunch and Certificate)
