

FEB 20,21

**PSG INSTITUTE OF TECHNOLOGY AND APPLIED RESEARCH
(PSG iTech)**

ABOUT

PSG Institute of Technology and Applied Research (PSG iTech), established by PSG & Sons' Charities, is an institution committed to academic excellence, innovation, and ethical engineering education. Through industry-oriented learning and research-driven practices, the institute nurtures critical thinking, problem-solving abilities, and professional competence among its students.

YUKTA, the annual intercollegiate cultural and technical festival of PSG iTech, reflects this spirit of innovation and collaboration. Welcoming participants from colleges across India, YUKTA presents a diverse range of technical, cultural, and experiential events that inspire creativity, encourage leadership, and promote interdisciplinary learning in a dynamic and competitive environment.

VISION

To achieve excellence in education and research, and nurture engineers with ethics, who will face global challenges to serve industry and society.

MISSION

To foster active learning, innovation, industry collaboration, research, and a can-do mindset for a sustainable world.

SCHEDULE

HACKATHON

An innovation-focused hackathon where students collaborate in teams to solve real-world problems using technology and creative thinking, culminating in pitching their solutions to an expert panel within a competitive, time-bound setting.

HOW IT WORKS

**CHOOSE YOUR
CHALLENGE**

**FORM YOUR
TEAM**

**BUILD &
INNOVATE**

**PRESENT
YOUR WORK**

PROBLEM STATEMENTS

**1 AI GENERATED IMAGE
DETECTION SYSTEM**

**2 SMART CROWD
MANAGEMENT SYSTEM**

**3 STUDENT INNOVATION
CHALLENGE**

ROUNDS

ROUND I (12th FEB- 15th FEB)

ONLINE SCREENING AND IDEA SUBMISSION

ROUND II 20th FEB 2026

OFF CAMPUS FINAL ROUND

DAY 1

TECHNICAL EVENTS

EVENTS	VENUES
Problem Rush: The Sherlock Code	E5-403,404
Fast and Curious: Web Drift	E3-402,404
Mind Heist	CSE Peer Learning Hall(E2-404)
Doomsday Protocol	SAP Lab (E2-101)
PIXEL PARADOX: Frame → Function → Fix	E2- 401
Code Warz 2026	E2- 102
LogicxCraft	E4-IC LAB
Cube Masters	E5-202
Circuit Escape Challenge	E3-104
Techvengers	E4-ECS LAB
I2I: Idea to Impact	E4-304
Build First Hunt Last	E5- Peer Learning Hall

WORKSHOPS

From Prompts to Agents - Creating Agentic AI with n8n	E3-403 DATA SCIENCE LAB
Drone Surveying Workshop	E5-Seminar Hall
The MERN Playbook : Building Industry Ready Full Stack Development	Cyber Security Lab (E2-203)

DAY 1

WORKSHOPS

EVENTS	VENUES
Hands-on Game Development Workshop with Godot	Computer Centre 1(E2-104)
Bit2Chip: Making RTL Real on FPGA Using Vivado	E4-VLSI LAB
Learn.Build.Quantum	E4-CC LAB
ZYNTH EV	E3 205
INNODRIVE-DRIVEVERSE	E3-207
Silicon Forge: The Blackboard FPGA Bootcamp	E3 107
Hydrogen2Power: "Hidden Engineering of Hydrogen Energy & Fuel Cells"	E6-204 Tutorial Hall and E6-104 Fuel cell - Lab
Cad 2 Component - Introduction to 3d Printing	Classroom - E6 MECH and CAD Lab - E6 MECH
From Pose to Purpose : Autonomous Navigation with Nav2	Mobile IOT lab
Build Beyond CAD - Velocita Racing	Seminar Hall (E6 Mech) and innovation Centre (E6 Mech)
Let's Build a Drone	ECE PEER LEARNING HALL E4-409
Hands On Computer Vision with ML : From Webcam to Model	E4-ECE SEMINAR HALL (E4 105)

DAY 1

WORKSHOPS

EVENTS	VENUES
Engineering Motion on Four Legs	E4 - ECE - Embedded lab
Workshop on Building an AI product from scratch	CSE SEMINAR HALL E2-103

NON TECHNICAL EVENTS

Level Up : The Game Fest	E4- 207, 208
Operation Endurance : The ultimate Obstacle Challenge	Lawn before iTech Square
Into the Upside Down	E3- 304, 305
The Wizarding Trials	E6-202
Kollywood Maze	E3- 302, 303
FlavourQuest	E2 - 405,406
PIXELORA	ECE E4 - 407
Escape the Cosmos	E2-301
Escape Express	E6-403,404- for escape room. notice board at E6 ground floor for confessions

DAY 2

TECHNICAL EVENTS

EVENTS	VENUES
ML Arena : Face to Text Intelligence Challenge	E3-402,404
CrackNCode	CSE Peer Learning Hall(E2-404)
D&D - Design and Decode	SAP Lab(E2-101)
THINK & LINK – Civil Engineering Edition	E5-202
AptiRush	E4-ECE SEMINAR HALL
Sketch to CAD	E6-404 E6-302
Hack and Crack 2026	Cisco Lab (E2-102)
MechSense: Where sensing meets assembly	E6 - Tutorial Hall, PAC LAB
Sensorix	E3-209
Prompt Battle	E3-407

DAY 2

WORKSHOPS

EVENTS	VENUE
Building Intelligent AI Systems with MCP Servers	E3-403 DATA SCIENCE LAB
WebAI Workshop - AI Powered Websites in 2 Minutes	E2-CSE SEMINAR HALL
SketchUp Workshop	E5-307
Flutter Fast : Build Apps in a Flash	Computer Centre 1 (E2-104)
Chipstorm: VLSI Meets Cadence	E4-VLSI LAB
IoT-Xplore: ESP32 Edition	E4-CC LAB
The AI-EEE Crossover	E3 207
PLC Nexus	E3-103
AutoGen - a Robotics and Autonomous Systems Workshop	Classroom – E6 MECH CAD Lab – E6 MECH
GenAI Systems: Diffusion Models for Image Generation	CyberSecurity Lab(E2-203)
Built Beyond CAD - Velocita Racing	Session 1 : Seminar Hall Session 2 : Innovation Centre

DAY 2

NON-TECHNICAL EVENTS

EVENT	VENUE
First Day First Show	E4- Peer Learning hall and a nearby Classroom
Zanjora : The Jungle Awaits	Civil Seminar hall E5-102
Track-Tone-Treasure	E2- 402 and 403
The Master Heist	E2-301,305,306
Breaking Bad	E3- 203
The Unattended Class	E3-302, 303
AataArangam	E3-304,305
Blind Bomb Squad	E2-405,4046

WORKSHOPS

WORKSHOPS

HANDS ON COMPUTER VISION WITH ML: FROM WEBCAM TO MODEL

A fully hands-on workshop that takes you from raw visual data to live AI models. Participants design, train, and deploy real-time computer vision systems. Learn why models work, not just how to run them. Build industry-ready AI with confidence.

 **Krishna**  **7200019640**

 **E4-ECE Seminar Hall**  **9.00AM - 4:00PM**  **20-02-2026**

FROM PROMPTS TO AGENTS: CREATING AGENTIC AI WITH N8N

A futuristic workshop where AI moves beyond chat into action. Participants build autonomous agents that execute real-world tasks. Prompts connect to APIs, emails, and live workflows. Design AI that thinks and works for you.

 **Vinish Kumar**  **7806825406**

 **E3-403 Data Science Lab**  **9.00AM - 3.00PM**  **20-02-2026**

WORKSHOPS

WEBAI WORKSHOP: AI-POWERED WEBSITES IN 2 MINUTES

A rapid workshop blending modern web development with AI tools. Participants integrate AI features into websites within minutes. No ML background required—just curiosity and creativity. Build smarter, interactive web experiences fast.

 **Sri Harini K**  **9486990633**

 **E2-CSE Seminar Hall**  **9.00AM - 3:00PM**  **21-02-2026**

BUILDING INTELLIGENT AI SYSTEMS WITH MCP SERVERS

Learn how AI securely connects to real-world tools and services. Participants build MCP servers enabling dynamic, action-driven AI systems. Explore architectures, tool calls, and deployment patterns. Turn static models into production-ready intelligence.

 **Gautham Prasath S**  **82870 72540**

 **E3-403 Data Science Lab**  **9.00AM - 4.00PM**  **21-02-2026**

WORKSHOPS

DRONE SURVEYING WORKSHOP

Discover how drones revolutionize modern surveying and mapping. Learn aerial data capture, processing, and site analysis. See real-world applications in inspection and planning. Survey smarter with technology.

 **Akilan**  **7603886772**

 **E5 - Seminar Hall**  **9.30AM - 4:30PM**  **20-02-2026**

SKETCHUP WORKSHOP

 **Miruthulan**  **9578240168**

Learn to create realistic 3D building models with ease. Transform ideas into visual structures using SketchUp. Explore architectural visualization hands-on. Bring designs to life digitally.

 **E5-307**  **9.30AM - 4:30PM**  **21-02-2026**

WORKSHOPS

THE MERN PLAYBOOK: INDUSTRY-READY FULL STACK DEVELOPMENT

An intensive workshop focused on real-world full-stack development.

Learn how MongoDB, Express, React, and Node work together. Emphasis on architecture, APIs, and scalability. Think like a professional developer.

 **Abhimanya S**  **7200748690**

 **E3-203 Cyber Security Lab**  **9.30AM - 4:30PM**  **20-02-2026**

FLUTTER FAST: BUILD APPS IN A FLASH

 **Harini Nachammai P**  **8754189599**

A high-energy introduction to mobile app development with Flutter. Build and run a complete app from scratch in one day. Learn UI design, navigation, and real-time coding. Launch your app journey here.

 **E2-104 Computer Centre 1**  **9.30AM - 4:30PM**  **21-02-2026**

WORKSHOPS

HANDS-ON GAME DEVELOPMENT WITH GODOT

A beginner-friendly game development workshop using Godot Engine. Participants build a complete playable game from scratch. Learn movement, combat, UI, and animation. Walk away with your own game build.

 **Keerthi V**  **8438146016**

 **E2-104 Computer Centre 1**  **9.30AM - 4:30PM**  **20-02-2026**

CHIPSTORM: VLSI MEETS CADENCE

 **Akash R**  **6379952599**

An industry-oriented introduction to VLSI using Cadence tools. Participants design, simulate, and analyze ICs hands-on. Bridge theory with real semiconductor workflows. Step into professional chip design.

 **E4 - VLSI Lab**  **9.00AM - 4:30PM**  **21-02-2026**

WORKSHOPS

BIT2CHIP: MAKING RTL REAL ON FPGA USING VIVADO

Explore RTL design and FPGA implementation using Vivado. Design, simulate, synthesize, and deploy digital circuits. See how theory maps onto real hardware. Turn logic into working silicon.

 **Vyramuthu Rakkappan**  **7904439758**

 **E4 - VLSI Lab**

 **9.00AM - 4:30PM**

 **20-02-2026**

LEARN.BUILD.QUANTUM

 **Akash B**  **9994211567**

A beginner-friendly introduction to quantum computing. Explore qubits, gates, and real quantum hardware. Build and run quantum circuits using IBM Qiskit. Step into the future of computation.

 **E4-CC Lab**

 **9.00AM - 1:00PM**

 **20-02-2026**

WORKSHOPS

IOT-XPLORE: ESP32 EDITION

A complete journey from embedded basics to intelligent IoT. Program ESP32, connect sensors, and stream data live. Deploy TinyML models for AIoT systems. Make devices think in real time.

 **Rishabh S Kalra**

 **8903570707**

 **E4-CC Lab**

 **9.00AM - 4:30PM**

 **21-02-2026**

THE AI × EEE CROSSOVER

 **Athelesh B**  **6379973859**

A workshop bridging AI with real electrical systems. Learn predictive maintenance, fault detection, and smart grids. Work with real datasets and intelligent models. Build the future of intelligent energy systems.

 **E3 - EEE Seminar Hall**

 **9.00AM - 4:00PM**

 **21-02-2026**

WORKSHOPS

INNODRIVE-DRIVEVERSE

A hands-on workshop and simulation hackathon on smart drive systems. Explore EV drives, power electronics, and AI-based optimization. Design and simulate intelligent motor control solutions. Where drives meet intelligence.

 Allwin R  7010582378

 E3-207

 9.00AM - 4:00PM

 20-02-2026

PLC NEXUS

 Srinithi S  93424 22528

 E3-103

 9.00AM - 4:00PM

 21-02-2026

This workshop offers hands-on training in Programmable Logic Controllers (PLC), covering architecture, I/O interfacing, sensors, actuators, and ladder logic, with live demonstrations and real-time industrial control applications.

WORKSHOPS

ZYNTH EV

A complete hands-on workshop on electric vehicle systems. Explore powertrains, batteries, charging, and diagnostics. Work with LabVIEW-based monitoring and control. Understand EVs end to end.

 **Niveditha A V S**  **9345996956**

E3-205

9.00AM - 4:00PM

20-02-2026

SILICON FORGE: THE BLACKBOARD FPGA BOOTCAMP

 **Chitrupa S**  **9344433848**

An intensive FPGA workshop using industry-grade development boards. Move from logic gates to real-time hardware systems. Learn Verilog, timing, and FPGA architecture hands-on. Build at the speed of silicon.

E3-107

9.00AM - 4:00PM

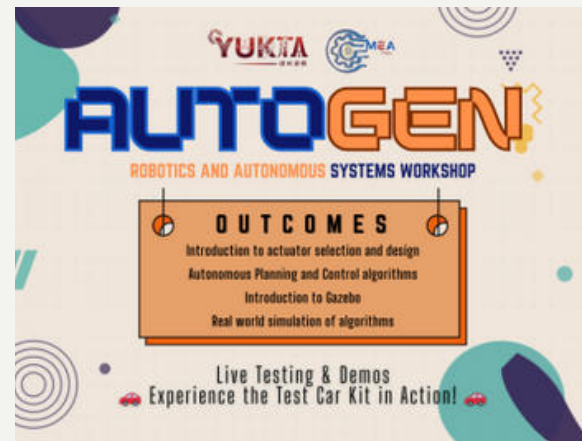

20-02-2026

WORKSHOPS

AUTOGEN: ROBOTICS & AUTONOMOUS SYSTEMS

A hands-on introduction to robotics and autonomous systems. Learn how machines sense, decide, and move. Blend theory with real-world automation. Engineer the future of robotics.

 **Kavin Raj M**  **9042528519**

 **Session 1 (Theory):**
Classroom – E6 301
Session 2 (Practical):
CAD Lab – E6 MECH

 **9.30AM - 4:30PM**  **21-02-2026**

WORKSHOP ON BUILDING AN AI PRODUCT FROM SCRATCH

 **Harsith S**  **8637462325**

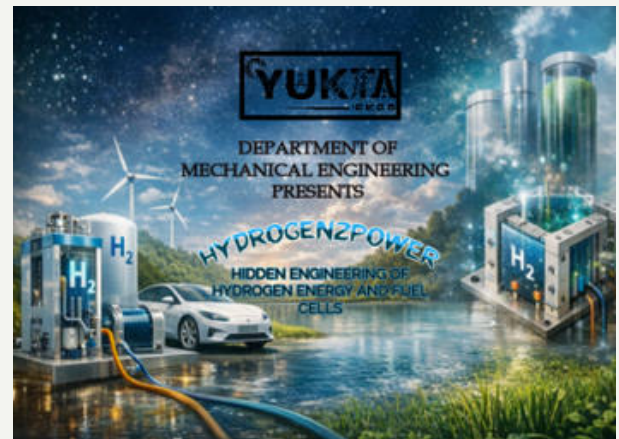

A beginner-friendly workshop on building real AI-powered websites. Learn how modern AI products work without coding or ML theory. Design prompts, workflows, and live AI interactions using Google technology. Walk away with a production-ready AI website and confidence.

 **E3 - CSE Seminar Hall**  **9.00AM - 3:00PM**  **20-02-2026**

WORKSHOPS

HYDROGEN2POWER ; HIDDEN ENGINEERING OF HYDROGEN ENERGY & FUEL CELLS

Explore the science behind hydrogen fuel cells. Learn how clean electricity is generated from air and hydrogen. Hands-on exposure to fuel cell systems. Step into sustainable energy.

 Rohith Sai T  8838580236

 E6-204 Tutorial Hall  9.30AM - 4:30PM  20-02-2026

CAD 2 COMPONENT: INTRODUCTION TO 3D PRINTING

 Joel P louice Jose  88702 59745

Discover how digital designs become physical objects. Learn additive manufacturing processes and applications. See live demonstrations and defect analysis. Manufacture smarter with 3Dprinting.

 Session 1 (Theory):
Classroom – E6
MECH 301
Session 2 (Practical):
CAD Lab – E6 MECH  9.30AM - 4:30PM  20-02-2026

WORKSHOPS

GENAI SYSTEMS: DIFFUSION MODELS FOR IMAGE GENERATION

Explore diffusion-based generative AI systems. Understand how images emerge through iterative refinement. Experience hands-on demos of modern image synthesis. Unlock the science behind creative AI.

 Sandeep S  7904692527

 E3-203 Cyber Security Lab  9.30AM - 4:30PM  21-02-2026

BUILT BEYOND CAD

 David Abhishek A  9944821218

A hands-on motorsport workshop led by national-level racing teams. Explore how off-road and formula vehicles are designed, built, and tested in real life. Learn subsystem design, manufacturing challenges, and competition workflows. See engineering come alive through live vehicle demonstrations.

DAY 1:  E6-Mech Seminar Hall  1.10PM - 4:45PM  20-02-2026

DAY 2:  E6-Innovation Centre  9.00AM - 12:30PM  21-02-2026

WORKSHOPS

LET'S BUILD A DRONE

An immersive hands-on workshop on real drone systems and flight control. Participants work directly with motors, sensors, controllers, and telemetry. Configure, monitor, and fly a drone while understanding how each component works together. Experience the thrill of commanding a real UAV.

 **Nivashini**  **9043521279**

 **E4-409**

 **9.00AM - 4:30PM**

 **20-02-2026**

ENGINEERING MOTION ON FOUR LEGS

 **Amrithaa S R**  **7010278703**

A complete introduction to quadruped robotics and intelligent motion. Participants design, simulate, and control a four-legged robot system. Learn industry workflows using ROS, Gazebo, and CAD-driven design. See how modern robots are built from concept to movement.

 **E4-ECE-Embedded Lab**

 **9.00AM - 4:00PM**

 **20-02-2026**

WORKSHOPS

LET'S BUILD A DRONE

An immersive hands-on workshop on real drone systems and flight control. Participants work directly with motors, sensors, controllers, and telemetry. Configure, monitor, and fly a drone while understanding how each component works together. Experience the thrill of commanding a real UAV.

 **Nivashini**  **9043521279**

 **E4-409**

 **9.00AM - 4:30PM**

 **20-02-2026**

CFD WORKSHOP

Hands-on workshop introducing the fundamentals and practical applications of Computational Fluid Dynamics using industry-relevant tools.

 **Amrithaa S R**  **7010278703**

 **Session 1 (Theoretical)**

E6 classroom 302

Session 2 (Practical):

CAD Lab - E6 MECH

 **9.00AM - 4:00PM**

 **20-02-2026**

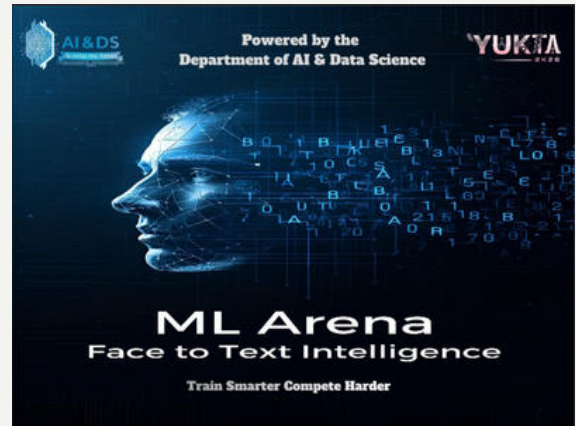

TECHNICAL EVENTS

TECHNICAL EVENTS

ML ARENA

A FACE TO TEXT INTELLIGENCE CHALLENGE

The Face to Text Intelligence Challenge is an exhilarating Machine Learning competition where real-world AI takes center stage. Participants will navigate through unseen data and rigorous evaluations, focusing on Face Classification and Handwritten Text Recognition, akin to industry-standard systems.

 **Devanidharshan K**  **6374346752**

 **E3-402,404**

 **9.00AM - 4:00PM**

 **21-02-2026**

PROBLEM RUSH

THE SHERLOCK CODE

 **Harikrishna**  **8778382150**

 **E5-403,404**

 **9.00AM - 4:00PM**

 **20-02-2026**

A Sherlock Holmes-style coding challenge where logic, strategy, and Python take center stage. Teams step in as digital detectives, solving intriguing coding mysteries under pressure. With hidden patterns and smart problem-solving, only the sharpest minds crack the case and win.

TECHNICAL EVENTS

FAST & CURIOUS

A WEB DRIFT

A hackathon-style web challenge focused on speed and creativity. Teams build full-stack solutions using AI tools and vite coding. Frontend and backend rounds test execution under time pressure. Ship smart, fast, and functional solutions.

 **Sunil Kumar V**  **9361873838**

 **E3-402,404**

 **9.00AM - 4:00PM**

 **20-02-2026**

MIND HEIST

CRACK LOGIC. STEAL WINS.

 **Navina M**  **6379584280**

A multi-stage technical event blending logic, decoding, and teamwork. Participants face interactive challenges and decision-driven rounds. Each stage intensifies pressure and strategic thinking. Only the sharpest teams steal the win.

 **E2-404**

 **9.00AM - 4:00PM**

 **20-02-2026**

TECHNICAL EVENTS

DOOMSDAY PROTOCOL

CODE TO SURVIVE

A high-intensity coding event set in a doomsday simulation. Teams solve deceptive logic traps and constrained coding challenges. Random conditions test adaptability and composure. Survive every round to win.

 **Pechikumar K**  **9361662831**

 **E2-101 SAP Lab**

 **9.00AM - 4:00PM**

 **20-02-2026**

CRACKNCODE

ASSEMBLE. CODE. CONQUER

 **Sridharshan B**  **8667200141**

 **E2-404**

 **9.00AM - 4:00PM**

 **21-02-2026**

An Avengers-themed coding showdown with strategic gameplay. Teams earn and manage Infinity Stones for competitive advantages. Each round blends logic, coding, and decision-making. Strategy decides the final snap.

TECHNICAL EVENTS

D&D: DESIGN AND DECODE

CREATE. CONVINCe.
ESCAPE.

A hackathon-style web challenge focused on speed and creativity.
Teams build full-stack solutions using AI tools and vite coding.
Frontend and backend rounds test execution under time pressure.
Ship smart, fast, and functional solutions.

 **Dhanvi M**  **6381954607**

 **E2-101 SAP Lab**  **9.00AM - 4:00PM**  **21-02-2026**

PIXEL PARADOX

FRAME \gg FUNCTION \gg FIX

 **Muthu Harish**  **6379470943**

A multi-stage technical event blending logic, decoding, and teamwork.
Participants face interactive challenges and decision-driven rounds.
Each stage intensifies pressure and strategic thinking.
Only the sharpest teams steal the win.

 **E2- 401**  **9.00AM - 4:00PM**  **20-02-2026**

TECHNICAL EVENTS

THINK & LINK

CIVIL EDITION

A fast-paced civil engineering logic challenge. Teams connect concepts across multiple competitive rounds.

Quick thinking and teamwork decide progress. Link right to win big.

 Sai Sanjitha M  7845830560

 E5-202

 9.30AM - 3:00PM

 21-02-2026

BUILD FIRST, HUNT LAST

DESIGN. BUILD. HUNT.

 Kanishka S  7538843085

An action-packed civil engineering challenge. Teams build models under random constraints and time limits. Adaptability and planning are crucial.

Build smart to hunt last.

 E5- Peer Learning Hall  9.30AM - 3:00PM

 20-02-2026

TECHNICAL EVENTS

CUBE MASTERS

STRENGTH SPEAKS.

A practical civil engineering strength-testing event. Teams cast and test M30 grade concrete cubes. Precision and standards define performance. Only the strongest cubes win.

 **Vasanth S**  **8778634610**

 **E5-202**

 **9.30AM - 3:00PM**

 **20-02-2026**

CIRCUIT ESCAPE CHALLENGE

SOLVE. BUILD.
UNLOCK.

 **Divyan**  **9344454185**

A hands-on electrical engineering challenge. Participants analyze circuits and debug real hardware setups. Speed and accuracy determine success. Escape the circuit to win.

 **E3-104**

 **9.30AM - 12:30PM**

 **20-02-2026**

TECHNICAL EVENTS

SENSORIX

DECODE. DEBUG. DESIGN.

A sensor and instrumentation focused technical challenge. Teams tackle quizzes, debugging tasks, and system design. Real-world industrial reasoning is tested. Master sensing to dominate.

 Vishnu Priya  8825730851

 E3-209

 9.30AM - 12:30PM

 21-02-2026

LOGIXCRAFT

DIGITAL DESIGN CHALLENGE

 Vishnu M  9042330712

 E4-IC Lab

 9.00AM - 4:00PM

 20-02-2026

A hands-on challenge rooted in digital system design fundamentals. Teams progress from quizzes to circuit design and IC implementation. Real-life logic problems test accuracy and teamwork. Design it right to win.

TECHNICAL EVENTS

TECHVENGERS

ASSEMBLE THE CIRCUITS

A hands-on challenge rooted in digital system design fundamentals.

Teams progress from quizzes to circuit design and IC implementation. Real-life logic problems test accuracy and teamwork. Design it right to win.

 **Gowsika G**  **6383271106**

 **E4-ECS Lab**

 **9.00AM - 3:30PM**

 **20-02-2026**

APTIRUSH

LOGIC AT LIGHTNING SPEED.

A fast-paced aptitude and reasoning battle. Questions move from basics to real-world logic scenarios. Speed, clarity, and decision-making matter most. Think fast or fall behind.

 **Pranav D**  **9342078565**

 **E4 - ECE Seminar Hall**

 **9.00AM - 4:00PM**

 **21-02-2026**

TECHNICAL EVENTS

MECHSENSE

WHERE SENSING MEETS ASSEMBLY

A hands-on mechanical challenge beyond theory. Participants identify components blindfolded and assemble mechanisms. Precision, teamwork, and timing are key. Trust your mechanical instincts.

 **Aschica S R**  **8148439788**

 **E6 - Tutorial Hall, PAC Lab**  **9.00AM - 4:00PM**  **21-02-2026**

PROMPT BATTLE

MASTER THE PROMPT.

A fast-paced AI challenge where words control outcomes. Teams craft precise prompts to guide AI effectively. Constraints test clarity, logic, and creativity. Command AI with confidence.

 **Harsith S**  **8637462325**

 **E2-CSE Seminar Hall**  **9.00AM - 1:00PM**  **21-02-2026**

TECHNICAL EVENTS

I2I: IDEA TO IMPACT

IDEAS INTO ACTION.

An innovation event for first-year engineers. Teams move from concepts to real-world solutions. Design thinking and presentation matter. Turn ideas into impact.

 **Dilipan S**  **9940441170**

 **E6 - 304**

 **9.00AM - 11:00AM**

 **20-02-2026**

SKETCH TO CAD

VISUALIZE. SKETCH. MODEL.

A creative technical event merging sketches and CAD. Participants convert drawings into precise digital models. Visualization and accuracy are tested. From paper to precision.

 **Yazhini**  **9498705066**

 **E6 - 404, 302**

 **9.00AM - 11:00AM**

 **21-02-2026**

TECHNICAL EVENTS

CODE WARZ 2026

THE FINAL CODING ARENA

A high-stakes elimination-based coding battle. Rounds test teamwork, adaptability, and clarity. Pressure escalates until only three teams remain. Survive the arena.

 **Saran Vishakan**  **9087462531**

E3-103 SAP Lab

9.30AM - 3:30PM

20-02-2026

HACK & CRACK

THE ULTIMATE CODING FACE - OFF

Test logic, debugging skills, and creative coding without constraints

 **Sujan U K**  **8148290334**

E2-102 Cisco Lab

9.30AM - 3:30PM

21-02-2026

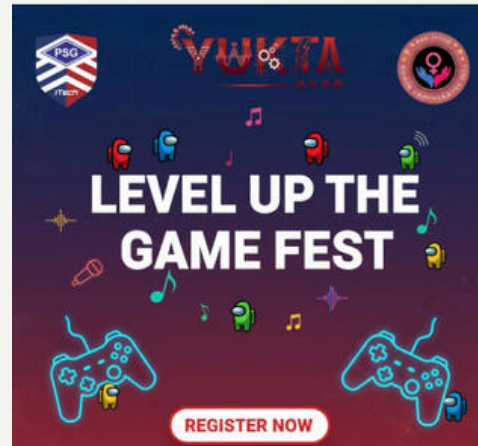

NON TECHNICAL EVENTS

NON - TECHNICAL EVENTS

LEVEL UP

THE GAME FEST

A high-energy team challenge packed with action and strategy. Inspired by popular game concepts, each round tests agility and presence of mind. Quick decisions, coordination, and confidence are key. Level up through fun, pressure, and empowerment.

Chitrupa S 9344433848

E4- 207, 208

9.00AM - 12:30PM

20-02-2026

FIRST DAY FIRST SHOW

LIGHTS. CAMERA. CHAOS.

Nadhishri K 7339055006

A cinematic challenge celebrating creativity and spontaneity. Teams dive into movie-themed tasks beyond typical quizzes. Improve storytelling, and humor take center stage. Pure entertainment meets teamwork.

E4-405, 406

10.00AM - 2:00PM

21-02-2026

NON - TECHNICAL EVENTS

ZANJORA

THE JUNGLE AWAITS

A Jumanji-inspired survival game rooted in decision-making. Teams bid for resources, defend territory, and plan ahead. Every choice impacts long-term survival. Outthink nature to win.

 **Asrar Ahamed K**  **7358849600**

E5- 102Civil Seminar Hall

10.00AM - 3:00PM

21-01-20262

TRACK-TONE-TREASURE

GUESS. HEAR. FIND.

 **Sushmitha B**  **9944125859**

An animal-themed fun event across clues, sounds, and hunts. Teams decode hints, identify calls, and race for treasure. Communication and coordination drive success. Fast, playful, and energetic.

E2-402,403

10.00AM - 1:00PM

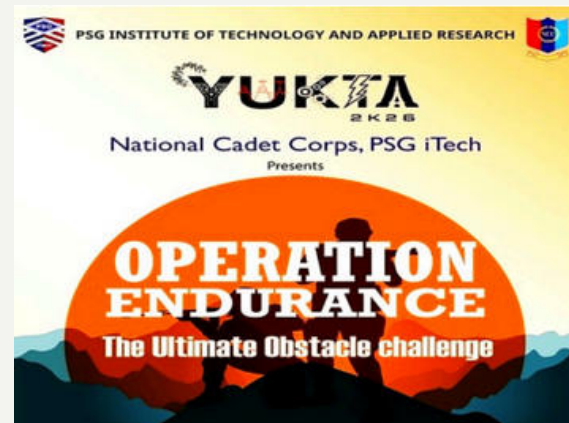

21-02-2026

NON - TECHNICAL EVENTS

OPERATION ENDURANCE

ENDURE TO WIN.

A solo obstacle challenge testing speed and stamina. Participants race against time through demanding obstacles. Penalties reward discipline and focus. Only the toughest finish first.

 **Aasitha Shyaam**  **7904749215**

 **Lawn-Itech Sqaure**  **10.00AM - 1:00PM**  **20-02-2026**
